

Ingredient

Vitashine®

Vitashine® is a **100% plant-based, vegan source of Vitamin D3 (cholecalciferol)**. **Vitashine®** is the most tested and leading vegan Vitamin D3 in the world, delivering a plant-derived cholecalciferol from lichen which is identical in chemical structure to lanolin-based Vitamin D3. It's **ethically produced, clinically verified, and environmentally responsible**, making it the gold standard for vegan Vitamin D3 supplementation worldwide. Look for the Vitashine® logo on your favorite products.

Key Highlights

The Source

Sustainably collected from the nutrient-rich Strait of Georgia on the east coast of Vancouver Island in British Columbia, Canada, using ecoconscious, non-depletive harvest methods that preserve marine biodiversity and product purity. The Canadian Food Inspection Agency (CFIA) and Fisheries and Oceans Canada (FOC) have implemented a weekly Marine Biotoxins monitoring program. It ensures that this area does not contain high levels of any of the harmful toxins such as PSP, ASP, DSP as well as any sewage contamination, oil contamination, or any radiation.
